

Electric Rule 21 Interconnection Request - Generating Facility

Pacific Gas and Electric Company service territory | Non-Export & NBT Generating Facilities <= 30 kW

Revision B - corrected 09/15/2026 Utility account no.: 4410-XXXX-27 (redacted) Meter no.: 1009XXXX (redacted)

Section A - Customer / Applicant

Applicant name:	Maria Delgado
Service address:	2147 Brookwood Avenue, Santa Rosa, CA 95404
Mailing address:	Same as service address
Phone / email:	(707) 555-0148 / m.delgado@example.com

Section B - Installer / Contractor

Installer:	Redwood Valley Solar & Electric (fictional)
CSLB license no.:	C-10 / C-46 #0000000 (sample)
Contact:	Dana Whitfield, Project Coordinator (707) 555-0192

Section C - Tariff and Operating Mode

Tariff:	☐ NEM-2 ☒ Net Billing Tariff (NBT-1) ☐ Other
Export to grid:	☒ Yes - export ☐ No - non-export
Non-export option (Screen I):	N/A
Estimated in-service date:	10/15/2026

Section D - Customer Service

Main service panel rating:	200 A
Main breaker rating:	200 A
Service voltage:	240 V
Service phases:	1
Service type:	☒ Overhead ☐ Underground

Electric Rule 21 Interconnection Request - Generating Facility

Pacific Gas and Electric Company service territory | Non-Export & NBT Generating Facilities <= 30 kW

Section E - Generating Facility

Generator technology:	Solar photovoltaic, inverter-based
PV modules:	20 x 400 W (Qcells Q.PEAK DUO BLK ML-G10+ 400)
PV array DC rating:	8.0 kW DC
Inverter manufacturer:	SolarEdge Technologies
Inverter model:	SE7600H-US
Number of inverters:	1
Inverter certification:	UL 1741 SB / IEEE 1547-2018 (CEC listed)
System AC rating:	7.6 kW
System apparent power rating:	7.6 kVA
Point of interconnection:	Load-side breaker, 40 A 2-pole, main service panel

Section F - Energy Storage

Energy storage included:	☐ Yes ☒ No
--------------------------	---

Section G - Attachments

- ☒ Single-line diagram (SLD-1, rev A)
- ☒ Inverter specification sheet (SolarEdge MAN-01-00308)
- ☐ Site plan (to follow)
- ☒ Customer authorization (on file with installer)

Section H - Signatures

By signing, the Customer requests interconnection of the Generating Facility described above under Electric Rule 21 and certifies that the information provided is true and correct to the best of their knowledge.
